ER is about the same as last year, Therapy and OT visits are down. There was a net income of \$45,221. Kelly Forman from Casey Peterson gave the audit report stating there were 13 audit adjustments proposed and there was a big improvement from last year. All in all she expressed it was a positive audit year.

• **Quality**

1. **Medical Staff Report – No meeting in December**
2. **Quality Report** – The quarterly survey results were discussed. With the Customer Service program we are focusing on willingness to recommend category on the HCAHP surveys. The overall top box rating was 41 for WCHS, 71 for Wyoming

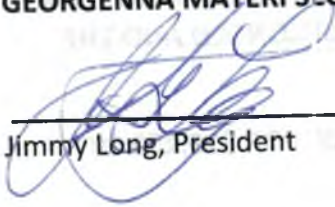

and 73 for the US. That is one we will be working on with Service Excellence. The willingness to recommend rating was 65 compared to the states 70 and 72 in the country. Tools are being implemented with the Service Excellence program. Medication training has been consistently a low response on the surveys so it will become a daily. Home Health had unusually low results. Overall the ER survey showed downward training compared to the previous one. Provider training will be done at the next Medical Staff meeting with the Service Excellence Physician who does the training. The annual nursing home survey was up from last year. They will also be working on willingness to recommend.

3. **Service Excellence** – Kary King due to her pregnancy is unable to go to the Service Excellence Conference in February. Deanna Makousky is going in her place. We were sent a link with all of the videos that were submitted for the Conference this year which was nice to see what others did. Two apps are available for us to use through the program – Bell Wether app and Everyone's a Caregiver. The first Do It projects are coming in.
 4. **Building Project** – There is two items they need to finish. There is a tile in the front hallway and some business system adjusting that needs to be completed.
 5. **EMR** – We continue to work with different items as they arise. Regional has been very good to work with and they get things fixed as they come up. We try to get things addressed right away and continue to meet with our contact twice a month. Things are going well.
- **Mammography** – We began testing on January 8, 2019. We have had some issues getting images to Regional. For the first 50 patients we have a gift.
